- Founder of laboratories (4path, Ltd, and CAS reference laboratory) and businesses
- (Cell Control Sciences)
- Chairman and Medical Director at Large Community Hospital (400+ beds) for 10+ years with recognized advancement of the department and participation in numerous hospital committees

PERSONAL BACKGROUND

- Dr. Ruby enjoys visiting and "advising" his two grown children, both entrepreneurs with their own businesses, as well as further developing expertise in business and computer technology.
- Dr. Ruby resides in the western suburbs of Chicago with his wife, Sandy, and their golden retrievers. Occasionally he will even sit down at the piano, a sadly neglected hobby.
